

## Scanning your QR code

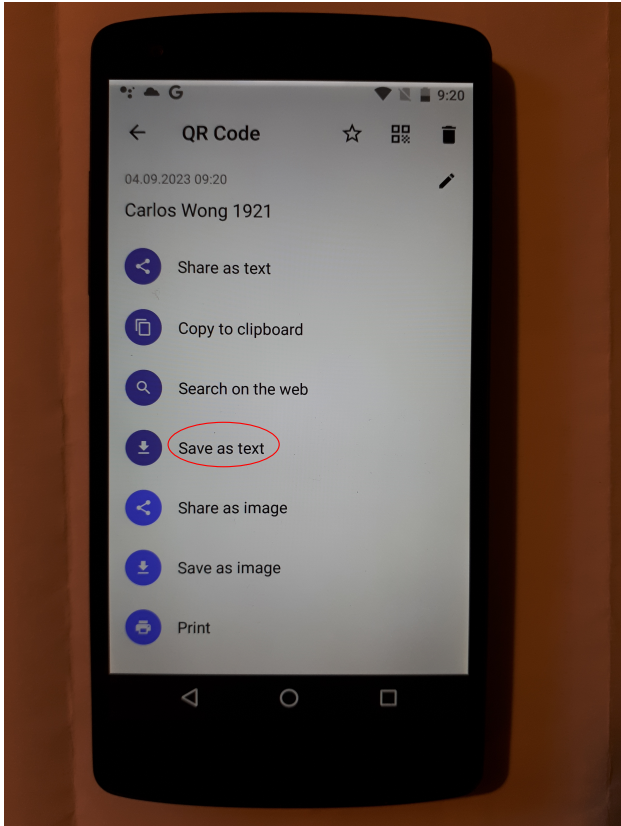

1. The scanning phone should look like Fig. (a).
2. Tap on the “←” symbol at the upper left corner. The screen will change as shown in Fig. (b).
3. Move the phone so that your QR code is positioned in the red square. (The camera is at the top of the backside of the phone.)
4. The phone will scan your QR code, and your name will appear.
5. Tap on **Save as text** (the 4th menu item from the top in Fig. (c)).
6. In the next screen (Fig. (d)), tap on **SAVE**. The screen will change back to Fig. (a), and will be ready for the next member to use.
